

NATIONAL JURISPRUDENCE AND THE ECHR

In co-operation with the National Training Institutions we intend to collect and to publish on the website national case law which makes reference to the European Convention on Human Rights and the case law of the European Court of Human Rights, also as a means of sharing and fostering best practices and to indirectly assess the impact of HELP training activities on the concrete daily work of the judges of the target countries.

The European HR Training Network, made up of the national representatives to the HELP Programme, through bilateral and multilateral meetings provides structure for dialog and co-operation among member states and facilitates the exchange of good practice and experience among those responsible for initial and in-service training of judges and prosecutors, in a multi-country, cross border dimension.

It's a work in progress, that we will realize in cooperation with the National Institutions, but everybody is invited to send us all relevant materials: it will be published.
